It's how you live.

For over 60 years, we've listened, observed, and grown alongside the way people live, love, relax and recharge. Because every person, every family, every space is different — and that difference is where real design begins.

You inspire everything we do.
Your routines. Your rituals. The way you curl up on the sofa at the end of a long day. The way you welcome friends. The way you make a house your own. That's what drives us to create furniture that fits your life — not the other way around. We combine comfort with beauty, function with feeling. We balance design, versatility and innovation in everything we make — so that each piece doesn't just furnish a room, but makes space for who you are. Whether your style is classic or contemporary, bold or understated, we're here to help you shape a home that reflects what matters most to you. From smart city apartments to open, eclectic homes — our collections are made to live in, to grow with, and to come home to.

Because the best design doesn't just fill a space. It fits your life.

Natuzzi Editions. It's how you live.

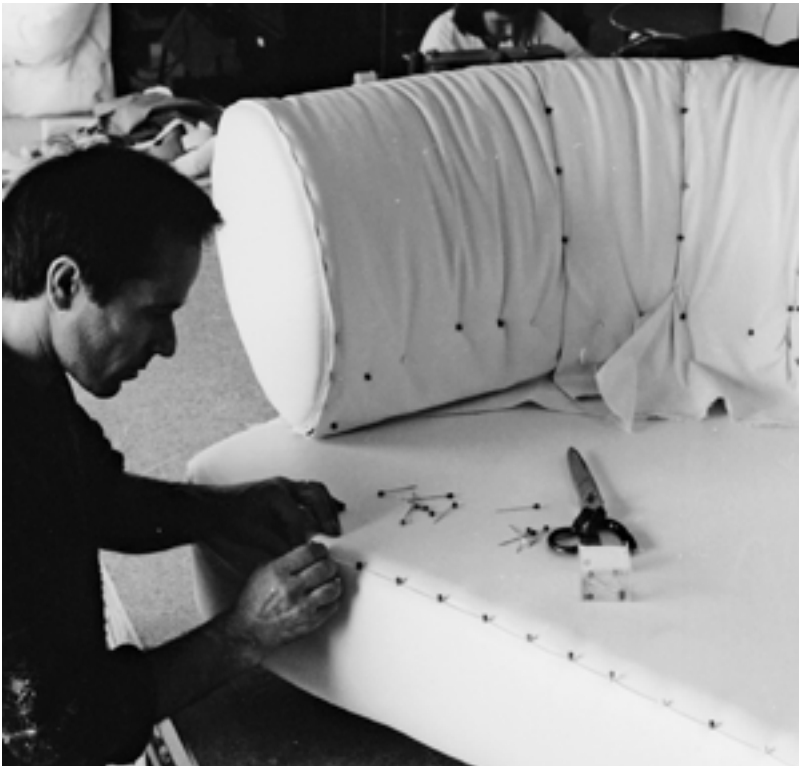

An Italian story of comfort.

It all began in 1959, when Pasquale Natuzzi founded his company in a small workshop, in Puglia. From that moment on, we've crafted collections that reflect the evolving needs of modern living—where design meets emotion, and innovation serves the everyday.

Rooted in Italian creativity and engineering excellence, our furnishings are a balance of intelligent functionality and uncompromising quality—certified to the highest international standards. We don't just design furniture. We design spaces that feel like home. Spaces where style and well-being come together, and where every detail is made to bring joy, comfort, and a sense of belonging.

Welcome to Natuzzi Editions.

Feelwell, a new vision of well-being.

We’ve spent decades asking ourselves a simple question: what does comfort really mean? And more importantly — what does it feel like? Guided by evolving lifestyles and backed by research, we’ve developed solutions designed to meet real needs, in real homes.

It’s no secret: sitting for long periods isn’t ideal for the body. That’s why we created Feelwell — a fresh take on comfort, where innovative thinking and smart design meet intelligent ergonomics to enhance physical and mental well-being. Every detail is crafted to promote active relaxation using advanced features like Zero Gravity and Micromobility. The goal we’ve proudly achieved was to improve posture, stimulate circulation, and help reduce muscular fatigue and tension where they build up most—like the lumbar area and the shoulders.

With Feelwell, comfort is much more than just taking a break. It’s about helping your body recover while you relax. It’s thoughtful, feel-good furniture, with that unmistakable Italian “touch” that makes Natuzzi Editions design timeless.

Dolcevita, Dreams, Neo Heritage.

Distinctive styles,
same italian soul.

The **Dolcevita collection** is inspired by the Roman Dolce Vita of the Sixties, synonymous with relaxed conviviality. Thanks to the “avance recule” technology, the depth of the seat dynamically adapts to every need. Projects designed for modern spaces where they become the centerpiece of elegant togetherness moments.

The **Dreams collection** is conceived for those who recognize the value of design as a true expression of self—even in moments of rest. It redefines the concept of bed and sofa bed offering creations that combine uncompromising design, comfort, and versatility.

The **Neo Heritage collection** pays tribute to ageless designs—reinterpreted for today by the distinctive Natuzzi touch. Every piece, crafted with premium materials and meticulous attention to detail, tells a story — a story of craftsmanship, evolution, and the enduring beauty of Italian design.

VENEZIA

“Relax in the most romantic way.”

The gondola, icon of Venice, inspired this sofa with its elegant, slender lines that recreate the asymmetrical shape of this symbol of the Serenissima. The armrest of Venezia evokes the sinuous curves of the Grand Canal, giving a unique and refined touch to the design. Its wide and deep seats are designed to let you enjoy moments of true comfort, just like a gondola that gently welcomes you as you sail through the canals. One seat is extra-large, ideal for relaxing while lying down or sharing a moment of relaxation with your loved ones. In addition, the open base is not only an aesthetic detail but also eases daily cleaning.
