Un secolo di cambiamenti epocali, rivoluzioni tecnologiche e culturali, trasformazioni assolute nei modi di vivere e di pensare. Ma anche un racconto di fedeltà a valori che vanno oltre il tempo, continuità nella crescita, capacità di unire tradizione e innovazione, italianità protagonista nel mondo. Una storia di persone che giorno dopo giorno, contribuiscono al successo di un'azienda e soprattutto di un modo di immaginare, creare e vivere la casa: Calligaris.

È il 1923 quando Antonio Calligaris inaugura un piccolo laboratorio a Manzano, in Friuli: un territorio in cui la lavorazione del legno risale al Settecento e trova nella sedia Marocca impagliata a mano, una delle sue espressioni più iconiche.

Inizia così un percorso che nell'arco di un secolo, attraversando cambiamenti epocali nella tecnologia, nel design e negli stili di vita, conduce Calligaris a diventare una realtà di riferimento mondiale nel campo dell'arredo per la casa.

Fra gli anni 1950 e 1970, sempre guidata dalla famiglia Calligaris, l'azienda si amplia e si trasforma in un'industria moderna, senza perdere l'ingegnosità e la cura per il dettaglio che derivano dalle sue origini artigianali, né il legame con la materia prima più calda, viva e naturale: il legno.

Il decennio 1980-90 rappresenta il periodo della massima espansione del "distretto della sedia" friulano e Calligaris è protagonista di questo grande successo mondiale del Made In Italy, inaugurando nel 1998 la prima filiale negli USA. Anche la collezione si amplia, proponendosi come un progetto d'arredo completo per la casa: dall'ambiente giorno allo spazio notte.

Il nuovo millennio vede Calligaris intraprendere un'ulteriore avventura, confermando la sua vocazione internazionale e le capacità imprenditoriali di sempre, attuando una nuova strategia di branding e comunicazione, con l'apertura di flagship store a Milano, Parigi, Londra, Monaco e Los Angeles.

Ciò che 100 anni fa sembrava impensabile, è oggi una realtà quotidiana per un'azienda che non ha mai smesso di credere al suo sogno, per tutti coloro che hanno contribuito a realizzarlo, per chi lo ha reso parte della propria casa e della propria vita: e la storia Calligaris continua, verso il domani.

A century of epic changes, technological and cultural revolutions, and massive transformations in how people live and think. But this is also a tale of loyalty to the values that go beyond time, continuity in growth, the ability to combine tradition and innovation, and the Italian spirit as a protagonist in the world. A tale of people who, day after day, contribute to the success of a company and, above all, a way of imagining, creating, and experiencing the home: Calligaris.

It was 1923 when Antonio Calligaris opened a small workshop in Manzano, Friuli. In this area, woodworking dates back to the eighteenth century and found its most iconic expression in the hand-made Marocca chair.

This was the beginning of a journey that, over a century, crossing epic changes in technology, design, and lifestyles, led Calligaris to become a global leader in home furnishings.

Between the 1950s and 1970s, with the Calligaris family still at the helm, the Company expanded and transformed into a modern industrial one without losing the ingenuity and attention to detail originating from its artisan birth nor the link with the warmest and most natural raw material: wood.

The 1980-90 decade was the period of most remarkable growth for the Friuli "chair district" and Calligaris played the protagonist role in the worldwide success of Made In Italy products. This allowed the Company to open its first branch in the USA in 1998. The collections expanded, becoming a complete home furnishing project: from the living area to the bedrooms.

The new millennium led to Calligaris's new adventure, confirming its international appeal and entrepreneurial skills as always, thanks to the implementation of a new branding and communication strategy that included opening its flagship stores in Milan, Paris, London, Munich, and Los Angeles.

What seemed unthinkable 100 years ago is now an everyday truth for a company that has never stopped believing in its dream and for all those who have contributed to making it come true, just as it is so for those who have made it part of their homes and lives: and the Calligaris story continues heading into tomorrow.

| Sostenibilità

La casa per Calligaris è uno spazio vitale, un ambiente ideale che ognuno crea a propria misura, un habitat in diretta relazione con la natura. Ecco perché Calligaris si impegna profondamente sul tema della sostenibilità, come elemento imprescindibile di ogni suo processo, progetto e prodotto.

Un impegno di lungo periodo a sviluppare, produrre e distribuire arredi ecosostenibili integrandoli a un sistema aziendale orientato a ridurre l'impatto ambientale. Un processo iniziato oltre 15 anni fa che ci ha permesso di ottenere importanti riconoscimenti come la certificazione FSC®, che garantisce la provenienza del legno da fonti gestite in maniera responsabile, e la certificazione ISO 14001.

Dalle fibre organiche, al vetro alla plastica post-industriale e post-consumo, le materie prime utilizzate da Calligaris contribuiscono a ridurre il consumo di preziose risorse naturali ed energetiche, innalzando il livello di circolarità del processo produttivo. Da diversi anni, inoltre, l'intero sistema aziendale ha avviato un percorso di riduzione degli sprechi e delle emissioni di CO2.

Abitare sostenibilmente, significa anche abbracciare uno stile di vita consapevole nei consumi, dando il giusto valore a una componente essenziale del prodotto: la durata. Calligaris seleziona solo i migliori materiali, per garantire un lungo ciclo di vita ed il raggiungimento di un sempre più avanzato livello di sostenibilità dei prodotti: per progettare, realizzare, vivere il futuro.

| Sustainability

For Calligaris the home is a living space, an ideal environment that everyone creates to one's pleasure, a habitat in direct relationship with nature. This is why Calligaris is deeply committed to sustainability as an critical element for each of its processes, designs and products.

A long-term commitment to develop, produce, and distribute eco-sustainable furniture by integrating them with a business system designed to reduce environmental impact. This process was started more than 15 years ago and allowed the Company to receive important results such as its FSC® certification that guarantees that the wood originates from responsibly managed forests, and its ISO 14001 certification.

From organic fibers to glass, post-industrial and post-consumer plastic, the raw materials that Calligaris use help to reduce the use of precious natural and energy resources, raising the level of circularity in the Company's manufacturing. In addition, for several years now, the entire corporate system has been on a path to reduce waste and CO2 emissions.

Living sustainably also means embracing a consumption-conscious lifestyle, giving value to durability as a key element. Calligaris selects only the best materials to ensure a long life cycle for its products and the achievement of an increasingly advanced level of product sustainability to design, make, and experience the future at its fullest.

Cartesio

design by Busetti Garuti Redaelli

La nuova versione del tavolo Cartesio rappresenta una raffinata e naturale declinazione in cui il legno diventa protagonista. La bellezza delle venature e delle sfumature delle gambe in legno massello conferisce al tavolo Cartesio un aspetto caldo e sofisticato, rendendolo collocabile armoniosamente sia in ambienti contemporanei che più tradizionali. Il piano del tavolo può essere personalizzato con diverse finiture, garantendo flessibilità di adattamento all'ambiente a cui è destinato. Con questa versione aggiornata del tavolo Cartesio, si uniscono eleganza e funzionalità, rendendolo un punto focale dell'ambiente in grado di creare un'atmosfera accogliente e raffinata nella zona pranzo.

The new version of the Cartesio table represents a refined and natural declination in which wood becomes the protagonist.

The beauty of the grains and shades of the solid wood legs gives the Cartesio table a warm and sophisticated look, making it harmoniously placeable both in contemporary and more traditional spaces.

The table top can be customized in different finishes ensuring flexibility of adaptation to the room for which it is intended.

With this updated version of the Cartesio table, elegance and functionality are combined, making it a focal point of the room and creating a cozy and refined atmosphere in the dining area.
